PROFESSIONAL SUMMARY

Computer Science undergraduate with strong fundamentals in Data Structures and Algorithms and hands-on experience in full stack web development using the MERN stack. Passionate about backend systems, API design, and building scalable web applications. Actively seeking software engineering internships to apply problem-solving skills and gain real-world engineering experience.

TECHNICAL SKILLS

Programming Languages	JavaScript, C, C++, Python
Backend & APIs	Node.js, Express.js, RESTful APIs, JWT Authentication, Prisma ORM
Frontend	React.js, Vite, Tailwind CSS, HTML5, CSS3
Databases	PostgreSQL (Neon), MongoDB
Cloud & Tools	Render, Vercel, Cloudinary, Git, GitHub, VS Code, Postman

PROJECTS

Vixora – Video Streaming Platform (YouTube-like)

Developed a scalable full stack video streaming platform with authentication, video uploads, playlists, and notifications. Designed REST APIs using Node.js, Express, PostgreSQL, and Prisma with optimized relational models. Implemented caching (Redis), rate limiting, and asynchronous processing using queues and workers, with real-time updates via Socket.IO. [GH](#) GitHub [LD](#) Live Demo

Bookit – Service Booking Platform

Built a full stack appointment booking platform for services like healthcare and personal care with role-based authentication for customers, service providers, and organizations. Implemented location-based search, scheduling, and payment integration using Node.js, Express, PostgreSQL, and Prisma. [GH](#) GitHub [LD](#) Live Demo

Agricultural Soil Analysis System – HackNUthon 6.0 Finalist

Built a soil analysis system using spectrometer data to predict NPK nutrient content, moisture levels, and pH values. Implemented data preprocessing and feature extraction pipelines in Python, achieving finalist position at HackNUthon 6.0. [GH](#) GitHub

Secure Peer-to-Peer Communication Network

Designed a C++ based peer-to-peer messaging application using file handling and data structures. Implemented user authentication, encrypted message storage, contact management, and efficient memory usage. [GH](#) GitHub

EDUCATION

B.Tech in Computer Science , Nirma University	2023 – 2027
CGPA: 8.25	

Class 12 (Science)	2023
96.10% — JEE Main: 97.84 percentile	

ACHIEVEMENTS & CERTIFICATIONS

Codeforces Rating: 1023	Profile Link
--------------------------------	------------------------------

LeetCode Rating: 1624	Profile Link
------------------------------	------------------------------

HackNUthon 6.0 Finalist	Mar 2025 Link
